Description

The Hungarian word for recorder (furulya) was first recorded in the Old Gradual published in 1636. The 17th century appearance of the word suggests that around that time a new type of duct flute was adopted by Hungarians from neighbouring ethnic groups, and this new instrument supplanted the earlier end-blown flutes and lingual pipes called in Hungarian *tilinkó* and *süvöltő*.

Basic data

Material/Technique:	wood
Measurements:	Height: 28 cm; Width: 1,8 cm;

Events

Created	When	1975
	Who	Tuka Zsigmond
	Where	Tószeg

Keywords

- aerophone
- peremfurulya - end-blown flute
