Description

Label: Joannes Udalricus Eberle, Lauten-Macher in Prague, 1729 (49?)

The label is genuine, and it does not exclude that Eberle's work really is. However, the instrument could originally be made of a viola da gamba, but a viola was built using a flap. Probably in order to use it as a five stringed viola d'amore.

Basic data

Material/Technique:

Measurements:

Height: 72 cm; Widht: 25 cm; Dept: 6 cm;
